

Corn-Free Layer

Available in 25lb, 50lb, 1/2 ton, and 1 ton

Purpose

Our 17% Protein Corn-Free Layer Feed is a complete nutritional feed of cracked and milled grain that's supplemented with kelp, organic alfalfa, and Poultry Nutri-Balancer. Designed for adult laying hens, our layer feed is formulated with additional calcium for egg shell strength and organic flaxseed to increase the omega-3 content of the eggs. Made without corn, this feed is ideal for flocks living in hot climates.

Feeding Instructions

Feed layer ration free choice from 16 weeks of age or first egg throughout the egg production cycle. Always provide plenty of fresh water. While this feed is balanced to meet average laying hen nutritional needs, we recommend providing free choice calcium shell to further support your flock's laying needs. Layer/Developer grit should also be provided free choice to help birds self-regulate their intake to best suit their individual needs and improve feed efficiency during digestion.
