HEALTHY HERBS

AROMATIC & HEALTHY

Organics

This package contains aromatic organic herbs that will make your chicken's coops, pens, nesting boxes, and social areas healthier, clean and fresh smelling. Why an herb mix?

Why an herb mix?

Herbs typically contain high amounts of the essential vitamins A, C and K. So, that's good. But more importantly, herbs are rich in polyphenols, which have potent antioxidant and anti-inflammatory effects as well as strong anti-microbial properties.

Suggested Use

Herbs can be added directly to feed ration and can also be used with fermenting grains.

For additional flock support, herbs can also be sprinkled throughout the coops, pens, nesting boxes, and social areas. Aromatic, healthy nesting herbs will provide egg laying stimulation, help retard parasite infestations, and help improve overall chicken health.
